

**Test Report** Report No.: GNWC24081404EN Issue Date: Aug. 16, 2024 Page 1 of 8

The following information was/were submitted and identified by/on behalf of the client:

Applicant Ningbo Princess Pea Import and Export Co., LTD

Address Room 103, No. 67, Nandajie Lane, Yinzhou District, Ningbo City, Zhejiang

Province

Sample Name Children's Clothing

Sample Model PJG65113032/PJG65113033/ PJG40188

3-14 years old Age

Buyer MIABELLE IMPORTS LLC

Manufacturer Ningbo Princess Pea Import and Export Co., LTD

Brand name MIABELLE IMPORTS LLC

Date of manufacturer 2024/7/15

**Batch Number** 20240700015

Country of Origin China

US Exported to

Sample Receive Date Aug. 14, 2024

Sample Testing Period Aug. 14, 2024 - Aug. 16, 2024

**Test Result Summary** Please refer to the next page(s)

Authorized signature:

Lab Manager: Gavin Zhou

Aug. 16, 2024

Report No.: GNWC24081404EN

Issue Date: Aug. 16, 2024

Page 2 of 8

As requested by the applicant, for details refer to attached page(s).

| TEST ITEM(S)                            | TEST REQUESTED  | CONCLUSION(S) |

### Remark:

### 1. Test Result Codes:

DNI = Did not ignite.

### 2. Summary of Test Criteria for Specimen Classification

| Class | Plain surface textile fabric               | Raised surface textile fabric                               |  |
|-------|--|---|--|
| 1     | Burn time is 3.5 seconds or more.          | (1) Burn time is greater than 7.0 seconds; or               |  |
|       | ACCEPTABLE (3.5 seconds is a pass)         | (2) Burn time is less than or equal to 7.0 seconds with no  |  |
|       |  | SFBB test result code. Exhibits rapid surface flash only.   |  |
|       |  | ACCEPTABLE—Normal Flammability.                             |  |
| 2     | Class 2 is not applicable to plain surface | Burn time is 4-7 seconds (inclusive) with base burn (SFBB). |  |
|       | textile fabrics                            | ACCEPTABLE  |  |
|       |  | Burn time is 4.0 to 7.0 seconds (inclusive) with base burn  |  |
|       |  | (SFBB). ACCEPTABLE—Intermediate Flammability.               |  |
| 3     | Burn time is less than 3.5 seconds. NOT    | Burn time is less than 4.0 seconds with base burn (SFBB).   |  |
|       | ACCEPTABLE                                 | NOT ACCEPTABLE—Rapid and Intense Burning.                   |  |

Note: SFBB poi and SFBB poi\* are not considered a base burn for determining Class 2 and 3 fabrics.

This report is only responsible for the tested sample(s) from the client, the testing result(s) is used for scientific research, teaching or internal quality control. Without the writing agreement of the company, the client is not allowed to copy the report in part (entire copy is excepted).

## 2. Mechanical hazards - Sharp point - 16 CFR part 1500.48, Technical requirements for determining a sharp point in toys and other articles intended for use by children under 8 years of age

Test Method: 16 CFR part 1500.48 was performed before or after abuse test(s) of 16 CFR part 1500.53

| Tested Sample(s) /Description | Test Item(s) |                  | <u>Assessment</u> |
|-------------------------------|--------------|------------------|-------------------|
| Children's Clothing           | Chara raint  | As received      | PASS              |
|                               | Sharp point  | After abuse test | PASS              |

# 3. Mechanical hazards - Sharp edge - 16 CFR part 1500.49, Technical requirements for determining a sharp metal or glass edge in toys and other articles intended for use by children under 8 years of age

Test Method: 16 CFR part 1500.49 was performed before or after abuse test(s) of 16 CFR part 1500.53

| Tested Sample(s) /Description | Test Item(s)     |                  | <u>Assessment</u> |
|-------------------------------|------------------|------------------|-------------------|
| Obildes als Olathias          | Ob a man and man | As received      | PASS              |
| Children's Clothing           | Sharp edge       | After abuse test | PASS              |

# 4. Tracking labels for children's products - ASTM F963-23 Standard Consumer Safety Specification for Toy Safety & CPSIA Section 103 & CPSA Section 14, (a) (5)

The manufacturer of a children's product shall place permanent, distinguishing marks on the product and its packaging, to the extent practicable, that will enable -

"(A) the manufacturer to ascertain the location and date of production of the product, cohort information (including the batch, run number, or other identifying characteristic), and any other information determined by the manufacturer to facilitate ascertaining the specific source of the product by reference to those marks; and "(B) the ultimate purchaser to ascertain the manufacturer or private labeler, location and date of production of the product, and cohort information (including the batch, run number, or other identifying characteristic)."

| Tracking label on the packaging   | <u>Assessment</u> | Tracking label on the product     | <u>Assessment</u> |
|-----------------------------------|-------------------|-----------------------------------|-------------------|
| Manufacturer's name & address     | Present           | Manufacturer's name & address     | Absent            |
| Date of production of the product | Present           | Date of production of the product | Absent            |
| Cohort information                | Present           | Cohort information                | Absent            |

**Note:** The tracking label assessment was based on the submitted sample(s), and the information was provided by the applicant. There was no verification on the validity of such information.

This report is only responsible for the tested sample(s) from the client, the testing result(s) is used for scientific research, teaching or internal quality control. Without the writing agreement of the company, the client is not allowed to copy the report in part (entire copy is excepted).
